

DorisNLP

Where People are the Heart of the Matter

NLP Master Practitioner & Master Life Coach

Society of NLP Certification Training

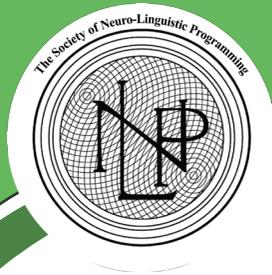

**For people who want to better lead, manage and coach themselves and others
in the field of any business, sales, therapy or counseling.**

For people who work with people...

For people who want to become trainers!

Pre-requisite: A 5-day recognized NLP Certification.

This 12-day Training satisfies the requirement for the NLP Trainer Training

DorisNLP

Where People are the Heart of the Matter

Program Overview

Stop being run by your emotions or thoughts.

Become a Master in transforming challenges.

Create long-lasting change and bring aspirations into action.

This 12-day NLP Master & Master Life Coach program gives you exceptional tools that are purpose-oriented and focus on your real-world situations. Whether you want to change careers, achieve the best in your field or solve family situations, this training evolves the human spirit's unlimited capacities. It includes the power of emotions and focuses on the patterns that further respect, love and ethical persuasion in any interaction. It equips you to become a NLP Master Coach in facilitating change for others. Take your NLP up to the next level!

Who?

Dr. A. Doris (ND & counselor from Germany) is the only Master Trainer from the Society of NLP offering NLP Master and Trainer Trainings in USA and in India. She has more than 33 years of experience in working with emotions and meditative therapies. As a corporate trainer, she designs and delivers custom NLP programs with a 25-year success history (see profile below).

Certification

This is a dual certification from the original NLP certifying body, the Society of NLP, CA, USA and Conscious Solutions, NLP Association International. This program is the stepping stone for the Society of NLP Trainer Training in India, offered only by Dr. Doris. We accept prior certification from other NLP organizations and vice versa.

DorisNLP

Where People are the Heart of the Matter

Benefits of This Program

NLP skills can be used to increase power, winning and sales, and can also be used to evolve respect and loving kindness in interactions and so in who we are as humans. This program empowers you to become who you truly are, beyond your expectations. A focus of this program is on relationships, on you and your needs. Specific templates will facilitate defining and accomplishing your goals and measure your growth for each skill.

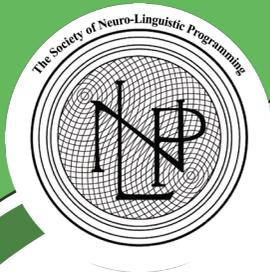

Doris is directly related to some of the founders and senior trainers of NLP since the 1980s. DorisNLP and Society NLP avoids psychometrics, psychological testing and any NON-NLP techniques and focuses on pure NLP techniques, as originally created in the 1970's in the USA.

DorisNLP addresses emotions in a way that no other NLP training does. This program is a true merger of NLP with Doris' 30 years of vast experience in

working with people from the heart. It includes improv theater, creative multi-sensory and body-oriented learning and emotional engagement. Upon your request your astrology chart can be casted as a background information to bring forth into action your greatest potential.

We are committed to creativity, inspiration and fun, to never having a boring moment in the training room and to assist you in jumping out of the box. It is important to us that you can bathe in safety, trust and cooperation. Together we can create significant changes in our own and others' lives, and beyond your expectations.

More Details on Training Content

Master of Senses & Calibration

First level NLP skills will be reinforced in a way that you will easily learn the greater subtleties of reading and using all parts of body language, gestures and eye cues. It is important to build the ability to differentiate sensory-based language from interpretation. Navigating the sensory realm and being fluent in all sensory languages is necessary to optimize emotional engagement, communication and presentation excellence.

Motivation Filters (Meta Programs)

Stress or “problems” arise when people habitually rely on one set of perceptions and responses or programs. Consequently, it becomes difficult to respond creatively and flexibly in fundamental and crucial activities such as motivation, decision-making, planning, managing time, and problem-solving.

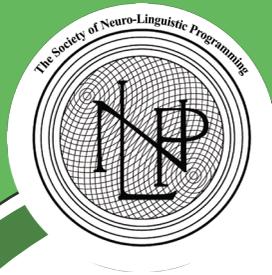

Becoming conscious of the Meta Programs in action, and the Meta Program required to accomplish a specific task, is a key that opens up

choices and creates new levels of skills that will last a lifetime. Applying Meta Programs helps you to irresistibly match how someone thinks and speaks. Significantly improve your motivation tactics by becoming proficient in predicting behavior and achieving goals. You can also apply these motivation filters to optimize hiring profiles and facilitate career choices.

Advanced Language Patterns & Communication Excellence

Everything you see, hear and feel is given meaning through language. Language develops the mind, influences the body, shapes environments and is one of the most powerful forces in the lives of humans. Language has power... the power to create your world. **“Words are the currency of life.” -- Christina Hall.**

- Reinforce the Meta (precision) and Milton (hypnosis and persuasion) models with multi-level exercises to question, recover and intentionally filter information
- Learn the 14 patterns that loosen

DorisNLP

Where People are the Heart of the Matter

belief systems and can create change on the highest level in one sentence. (Sleight of Mouth Patterns)

- Shift focus from the negative, complaint or problem into positive intentions, creative solutions and desired directions.
- Move beyond “either-or” thinking, recognize and transform paradox and binds.
- Use time in language to shift time forms (past, present, future)
- Learn the three structures of time orientation and expand the way you code time
- Advance analogy, metaphor & story-telling application for ethically persuasion.
- Work with flash card games and language templates that bring all of the NLP language models together to expand your world and success beyond your expectation.

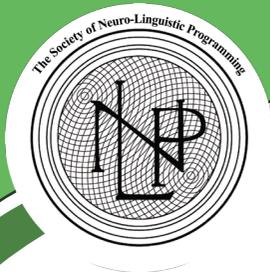

Steadily build your tower of communication excellence for optimal negotiation, mediation and persuasion effects. Expect great

“Aha” moments. Settle for nothing less but the best in language training!

Become a Success Strategist

We have strategies in all areas of our lives: how we get up in the morning, how we complete a project, how we make decisions or memorize, get things done on time. Some of our strategies work super well and some are poor. Do what you were never able to do. Obtain techniques on how to change, optimize and test these strategies accurately so you will stop re-creating the same unwanted habits over and over again and skillfully program new behaviors that work.

DorisNLP

Where People are the Heart of the Matter

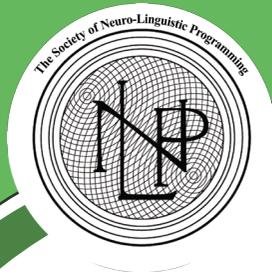

Whatever someone can do, you can do it too! NLP Modeling is the process of recreating excellence. We can model any human proficiency by mastering the beliefs, the physiology and the specific thought processes. You will choose a modeling process and then observe your chosen expert with the aim of extracting parts of their expertise or artistry through advanced templates. We have seen extraordinary results from doubling income, changing career and walking on fire to simply modeling how someone keeps their desk clean. Strong modeling practices are the basis of excellent NLP training.

Advanced Interventions for Identity & Behavioral Change

Dr. Doris is the only expert in Emotional Intelligence NLP and has more than 100 specific advanced NLP interventions in her pocket, one of them is "Kinesthetic Time Line". You will identify and change your most fundamental limiting patterns, for example underlying fears or traumas. Physically moving on your life line on the floor, building your Evolved You and designing your desired future happens powerfully through Advanced Time Line Re-imprinting.

DorisNLP

Where People are the Heart of the Matter

Additional advanced interventions may include:

- Advanced Belief Change and Submodality Structures (Forgiveness Strategy, Overcoming Anger, Resolving Grief/ Loss/ Shame)
- Polarity Management (Walking Infinity)
- Advanced Addiction Cures (Compulsion Blow Out, Releasing Emotional Enmeshment)
- Transforming Guilt Process

Time

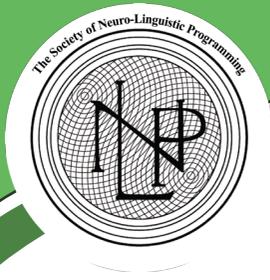

Time is often ignored, minimized or under utilized. Identify the specific “time traps” that jeopardize your time management and interactions with others. Stop stress and procrastination and increase your ability to be more truthfully in the moment by applying the innovative Time Matrix, taught only in this NLP Master Track. The Time Matrix gives you practical tools and ready-made templates to up-date your “time” maps so you can take charge and relate to “time” holistically, physically

and with fun and ease. It is a system that excludes failure and brings your business plans, personal visions and things that are important in your life into action, successfully and congruently.

Presentation

This module of the NLP Master Track is designed to overcome shyness, fear of public speaking or any social anxiety. Whether you are speaking in public or have to communicate difficult family topics, you can get rid of the butterflies and learn skills that enable you to shine and become the best in your field or situation. Captivate the attention of any person or audience with confidence and flare! This module is already a preparation for the next level: NLP Trainer Training.
